Jinja, Uganda
Open to opportunities

PROFILE

Designer and builder. I make brands, print and social visuals, and the websites they live on — so a visual identity ships as working product rather than a folder of files. Over the past year I designed and built CHRISCO Digital Academy, a 19-course learning platform for young people in Jinja, including its branding, 20 published guides and a launch film.

WHAT I DO

Brand identity — marks, palettes, type systems and the rules that keep them consistent.

Print and merchandise — garment artwork, placement specs, print-ready files for screen and DTG.

Social and campaign visuals — ad sets, carousels, posters, thumbnails.

Editorial layout — guides, workbooks and long-form documents.

Web and product design — page layout, components, design systems.

Front-end build — turning those designs into responsive, working sites.

Motion and video — short-form edits, motion graphics, launch films.

TOOLS

Figma · Adobe Photoshop · Illustrator · Canva

Next.js · React · Tailwind CSS · HTML / CSS

Python · Supabase · Git

CapCut · After Effects · FFmpeg

EDUCATION

Self-directed, continuous
Design fundamentals, typography and front-end development, studied and applied through live client-style projects.

LANGUAGES

English — fluent (written and spoken)
Luganda — native

EXPERIENCE

Founder, designer and developer 2024 — Present
CHRISCO Digital Academy — CHRISCO Youth Aflame

- Designed the full brand: wordmark, editorial palette (bone, ink, oxblood), type system and component library.
- Built the platform end to end in Next.js and React — 19 course pages, library, shop, dashboard and a course-helper chat.
- Wrote and published 20 downloadable guides, each laid out as a print-ready PDF.
- Produced the launch film (1080×1920) and its poster artwork — script, narration, motion graphics and edit.
- Designed a merchandise system with three collections, a garment palette and per-product print placements.

Graphic design and digital content 2023 — Present
Freelance and community projects

- Brand and campaign visuals for small businesses and youth programmes.
- Poster, flyer, thumbnail and social-kit design, delivered print-ready or platform-sized.
- Document and report design — proposals, one-pagers and evidence packs for grant applications.

SELECTED WORK

CHRISCO Digital Academy
Platform, brand system, 19 courses

20 published guides
Editorial layout, cover series, PDF output

Launch film
Script, motion graphics, edit, 1080×1920

Merchandise system
