CHRISCO Youth Aflame
CHRISCO DIGITAL ACADEMY | CHRISCO FELLOWSHIP OF CHURCHES

Digital Marketing Course Handbook

"Grow any business online, with strategy, not guesswork."

Growth Marketing & Analytics Track | 8 Weeks | All Levels

28-Page Illustrated Edition

Prepared by CHRISCO Youth Aflame | chriscoyouthaflame2025@gmail.com

Course Foreword

Every business today needs to be found and chosen online, but most owners have no idea how. That gap is your opportunity. Digital marketing is a skill you can sell as a freelancer, use to grow your own venture, or turn into a full-time career, and it is learnable without a marketing degree.

This book gives you the map: how the pieces (search, content, social, ads, email, data) connect into a system that turns strangers into customers. You do not need to master every channel at once, understand the whole, then go deep where it matters.

THE PRACTITIONER PROMISE

You will learn how the main digital channels fit together, SEO, content, social, ads, email and analytics, and how to run a real campaign that gets measurable results.

Marketing is learned by doing and measuring. Apply each chapter to a real business, your own, a friend's, or an imagined one, so the ideas turn into skills.

Published by CHRISCO Digital Academy under CHRISCO Youth Aflame (*CHRISCO Fellowship of Churches*), this 28-page course handbook explains every module clearly with visual diagrams, real East African case studies, and step-by-step labs. Reach our mentorship desk anytime at chriscoyouthaflame2025@gmail.com.

Key Learning Outcomes

01

Introduction to digital marketing: Digital marketing is a trackable system, not guesswork.

02

Content marketing: Help first; sell second.

03

Google Ads basics: Google Ads capture people at the moment of intent.

04

Analytics and reporting: A campaign coordinates channels toward one goal.

Across 8 Weeks of structured practice, each of the 8 modules is given a dedicated two-page spread: first unpacking the concept visually, then walking through a real field scenario and hands-on lab.

By Module 08, you will have built and verified a complete digital campaign ready to serve employers, clients, ministries, and communities with excellence.

Table of Contents

Course Foreword & Key Outcomes 02

01 Foundations & Core Mindset (Modules 1 to 2) 05

02 Core Frameworks & Strategy (Modules 3 to 4) 10

03 Execution & Applied Mastery (Modules 5 to 6) 15

04 Scaling & Capstone Project (Modules 7 to 8) 20

05 Complete Syllabus & Fellowship Reflections 25

06 90-Day Action Plan & Stewardship 27

01
Foundations & Core Mindset

Module 01: Introduction to digital marketing | Module 02: SEO fundamentals

MODULE 01 · PART 1

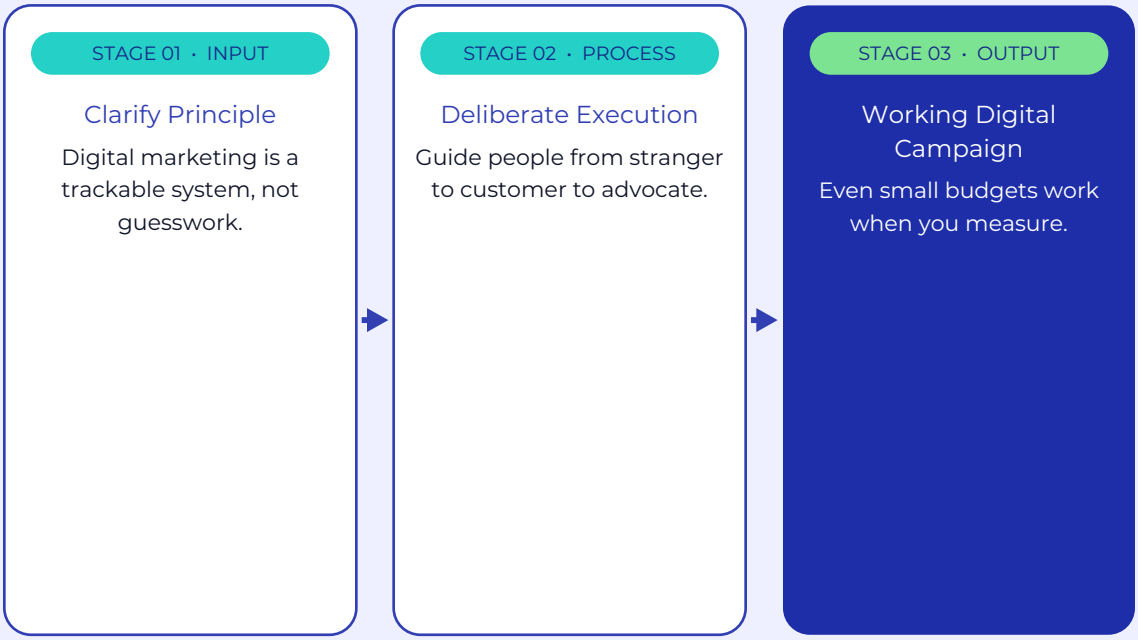

1.1 Introduction to digital marketing

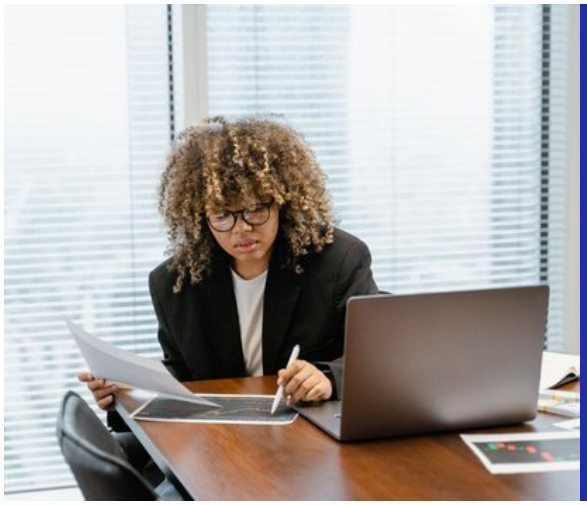

Digital marketing is everything a business does to reach and win customers online. It replaces guesswork with a system: attract the right people, earn their trust, and turn them into customers, all trackable and improvable. Unlike a billboard, you can see exactly what works and adjust, which makes it powerful and cost-effective even on a small budget.

The core idea is the customer journey: people move from not knowing you (awareness), to considering you, to buying, to (ideally) recommending you. Each channel plays a role along that journey. Your job as a marketer is to guide people smoothly from stranger to happy customer, using the right message in the right place at the right time.

Why This Principle Matters in Depth: Many learners read about *introduction to digital marketing* at a surface level, yet struggle when building a real digital campaign. Notice the underlying logic: when you anchor your work around the rule that digital marketing is a trackable system, not guesswork., you remove guesswork and build repeatable confidence. Take time to study the visual concept diagram below before moving to the worked case study on the next page.

VISUAL CONCEPT DIAGRAM · MODULE 01: INTRODUCTION TO DIGITAL MARKETING

MODULE 01 | WORKED CASE STUDY

Real-World Scenario:
A small bakery went from waiting for walk-ins to running simple online marketing, a findable page, tasty photos, and a few local ads. Orders rose because customers could finally discover, trust and reach them online.

How to Apply This Lesson Step by Step

Look closely at why the example above succeeded: instead of waiting for perfect conditions, the practitioner focused on one concrete deliverable and tested it in the real world. Use the guided assignment below to build the exact same muscle in your own Digital Marketing workbook.

HANDS-ON LAB ASSIGNMENT • MODULE 01

Your Practical Task: Pick a business (real or imagined). Map its customer journey: how would a stranger first hear of it, decide to trust it, and finally buy?

Self-Check Before Moving On: Write down what worked, what felt unclear, and one specific improvement you will make on your second repetition. Competence comes from completed reps, never passive reading.

Module 01 Key Takeaways

01

Digital marketing is a trackable system, not guesswork.

02

Guide people from stranger to customer to advocate.

03

Even small budgets work when you measure.

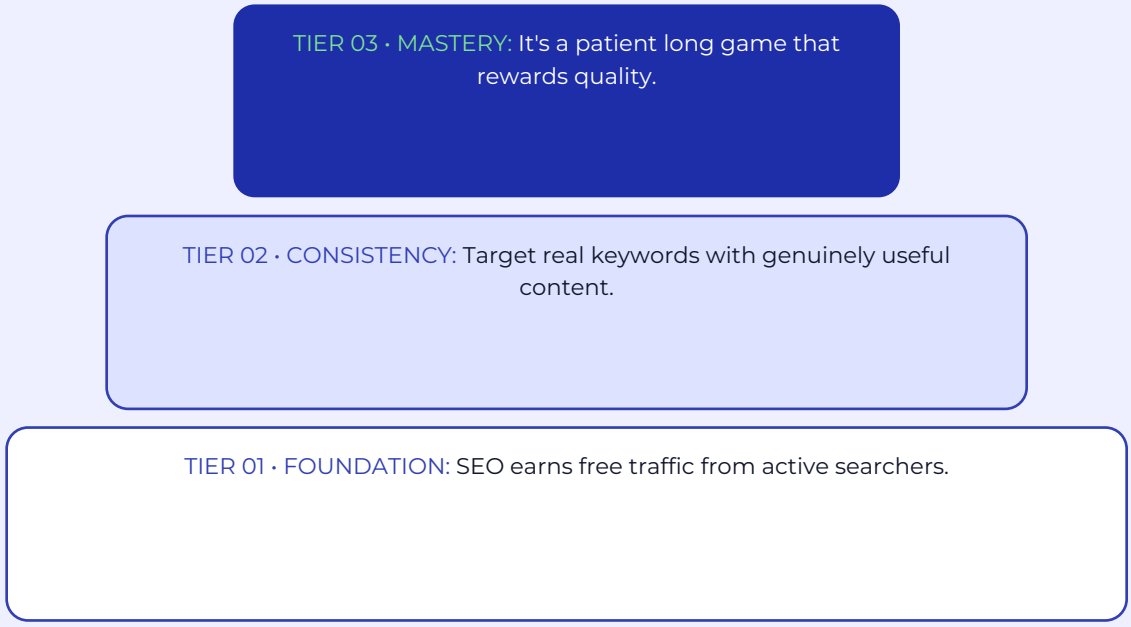

1.2 SEO fundamentals

Search engine optimisation (SEO) is how you get found on Google when people search for what you offer, without paying for ads. It works by helping search engines understand your content and trust it. The basics: know the keywords your customers search, create genuinely useful content around them, and make your site fast, clear and mobile-friendly.

SEO is a long game but hugely valuable, because ranking well brings free, ongoing traffic of people actively looking to buy. Focus on answering real questions better than others do, using natural keywords in titles and content, and earning links and mentions over time. It rewards patience and quality, not tricks, which is good news for genuine businesses.

Why This Principle Matters in Depth: Many learners read about *seo fundamentals* at a surface level, yet struggle when building a real digital campaign. Notice the underlying logic: when you anchor your work around the rule that seo earns free traffic from active searchers., you remove guesswork and build repeatable confidence. Take time to study the visual concept diagram below before moving to the worked case study on the next page.

VISUAL CONCEPT DIAGRAM · MODULE 02: SEO FUNDAMENTALS

CHRISCO Youth Aflame | chriscoyouthaflame2025@gmail.com

MODULE 02 | FIELD BRIEF

Focus Skill:
SEO fundamentals

Core Rule:
SEO earns free traffic from active searchers.

Target Output:
Working digital campaign

MODULE 02 | WORKED CASE STUDY

Real-World Scenario:
A plumber's simple page titled 'emergency plumber in Jinja' with helpful content started appearing in local searches, bringing steady calls for free, month after month, from people ready to hire right then.

How to Apply This Lesson Step by Step

Look closely at why the example above succeeded: instead of waiting for perfect conditions, the practitioner focused on one concrete deliverable and tested it in the real world. Use the guided assignment below to build the exact same muscle in your own Digital Marketing workbook.

HANDS-ON LAB ASSIGNMENT · MODULE 02

Your Practical Task: For your chosen business, write down five keywords customers would search. Draft one helpful page or article title around the best one.

Self-Check Before Moving On: Write down what worked, what felt unclear, and one specific improvement you will make on your second repetition. Competence comes from completed reps, never passive reading.

Module 02 Key Takeaways

01

SEO earns free traffic from active searchers.

02

Target real keywords with genuinely useful content.

03

It's a patient long game that rewards quality.

02
Core Frameworks & Strategy

Module 03: Content marketing | Module 04: Social media advertising

MODULE 03 · PART 1

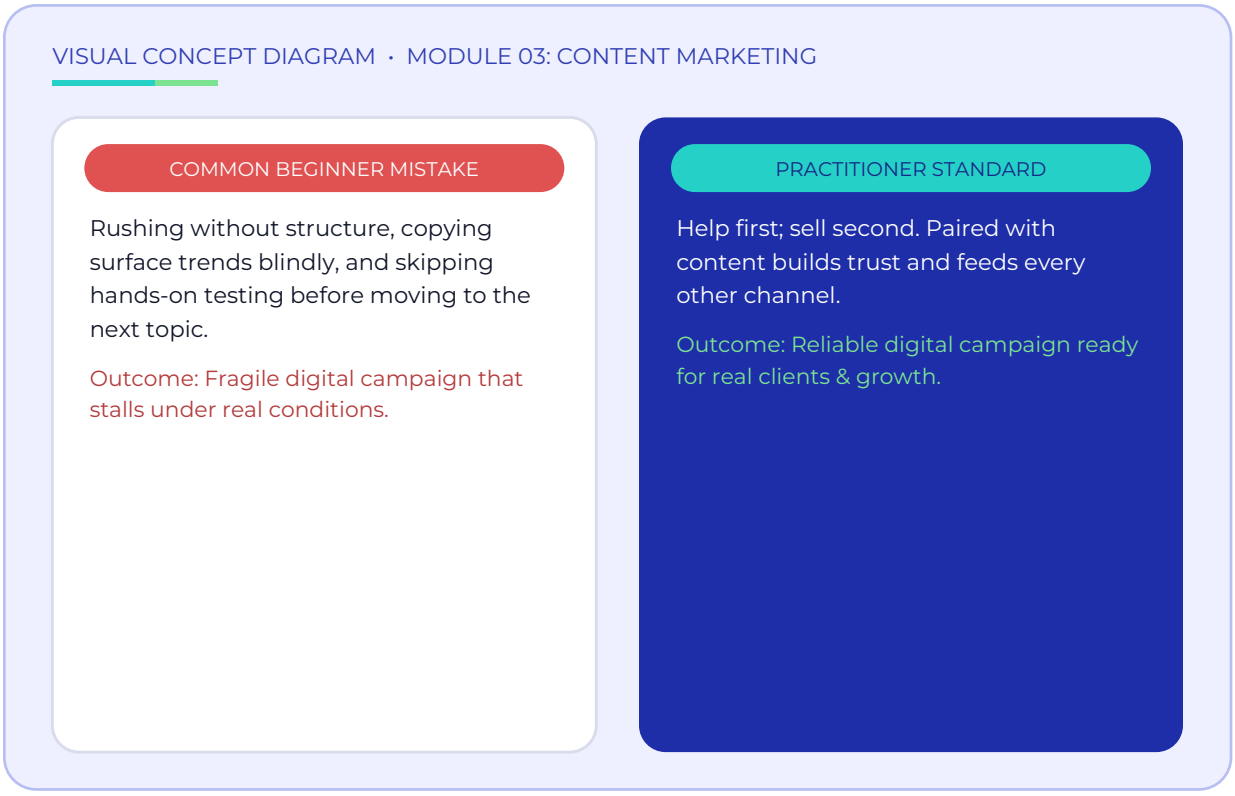

2.1 Content marketing

Content marketing means attracting and keeping customers by consistently creating useful or interesting content, articles, videos, guides, posts, instead of only advertising. It builds trust and authority: when you help people for free, they remember you when they are ready to buy. Content is the fuel that feeds SEO, social media and email alike.

The key is to be genuinely valuable to your specific audience, solve their problems, answer their questions, entertain or inspire them. Plan content around what your customers care about, not just what you sell. Done consistently, content marketing turns your brand into a trusted resource, and trusted resources get the sale when the time comes.

Why This Principle Matters in Depth: Many learners read about *content marketing* at a surface level, yet struggle when building a real digital campaign. Notice the underlying logic: when you anchor your work around the rule that help first; sell second., you remove guesswork and build repeatable confidence. Take time to study the visual concept diagram below before moving to the worked case study on the next page.

VISUAL CONCEPT DIAGRAM · MODULE 03: CONTENT MARKETING

MODULE 03 | FIELD BRIEF

Focus Skill:
Content marketing

Core Rule:
Help first; sell second.

Target Output:
Working digital campaign

MODULE 03 | WORKED CASE STUDY

Real-World Scenario:
A skincare seller posted honest tips about common skin problems instead of only pushing products. People trusted her advice, followed her, and bought her products when ready, the free content did the selling by building trust.

How to Apply This Lesson Step by Step

Look closely at why the example above succeeded: instead of waiting for perfect conditions, the practitioner focused on one concrete deliverable and tested it in the real world. Use the guided assignment below to build the exact same muscle in your own Digital Marketing workbook.

HANDS-ON LAB ASSIGNMENT • MODULE 03

Your Practical Task: List five pieces of content (topics) that would genuinely help your business's customers. Outline the most useful one.

Self-Check Before Moving On: Write down what worked, what felt unclear, and one specific improvement you will make on your second repetition. Competence comes from completed reps, never passive reading.

Module 03 Key Takeaways

01

Help first; sell second.

02

Content builds trust and feeds every other channel.

03

Plan around customers' problems, not your products.

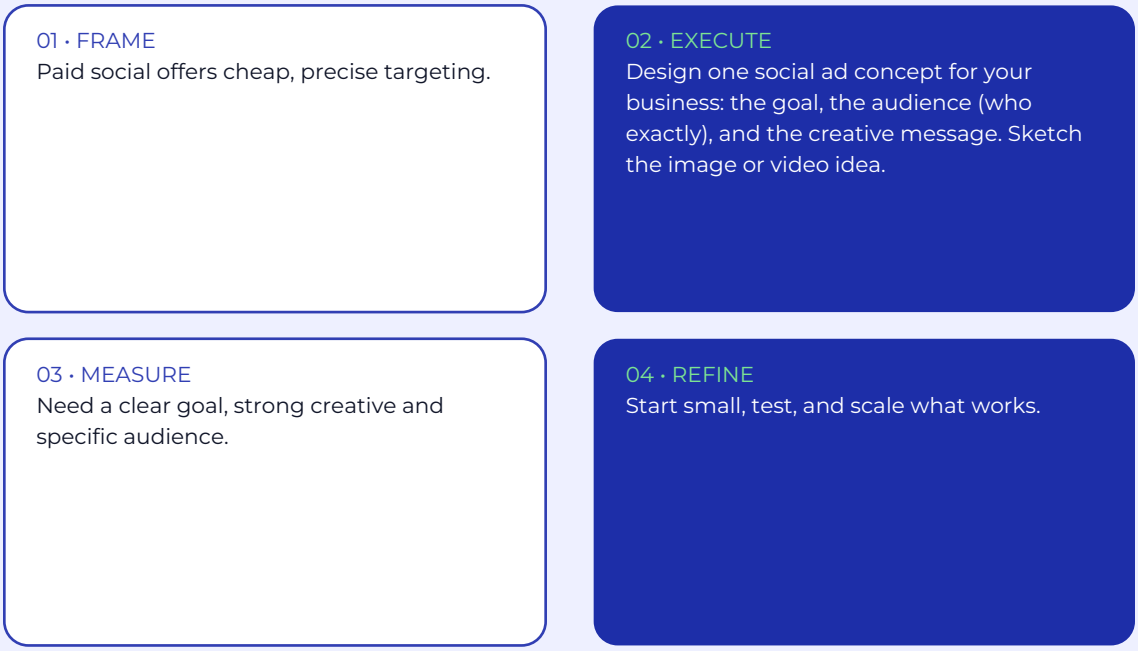

2.2 Social media advertising

Social media (Facebook, Instagram, TikTok, etc.) lets businesses reach huge, precisely-targeted audiences cheaply. Beyond free posting, paid social ads let you put your message in front of exactly the right people, by location, age, interests and behaviour, for a small budget. This targeting is what makes online ads so much more efficient than traditional ones.

Successful social ads need a clear goal (awareness, leads, or sales), a compelling creative (a scroll-stopping image or video with a strong message), and a specific audience. Start with a small budget, test different versions, keep what works and cut what doesn't. You can achieve real results with very little money if you target and test well.

Why This Principle Matters in Depth: Many learners read about *social media advertising* at a surface level, yet struggle when building a real digital campaign. Notice the underlying logic: when you anchor your work around the rule that paid social offers cheap, precise targeting., you remove guesswork and build repeatable confidence. Take time to study the visual concept diagram below before moving to the worked case study on the next page.

VISUAL CONCEPT DIAGRAM · MODULE 04: SOCIAL MEDIA ADVERTISING

MODULE 04 | FIELD BRIEF

Focus Skill:
Social media advertising

Core Rule:
Paid social offers cheap, precise targeting.

Target Output:
Working digital campaign

MODULE 04 | WORKED CASE STUDY

Real-World Scenario:
A local gym spent a small daily budget on a Facebook ad targeting people nearby interested in fitness. A short, energetic video plus a free-trial offer filled several class spots for less than the cost of one printed poster.

How to Apply This Lesson Step by Step

Look closely at why the example above succeeded: instead of waiting for perfect conditions, the practitioner focused on one concrete deliverable and tested it in the real world. Use the guided assignment below to build the exact same muscle in your own Digital Marketing workbook.

HANDS-ON LAB ASSIGNMENT · MODULE 04

Your Practical Task: Design one social ad concept for your business: the goal, the audience (who exactly), and the creative message. Sketch the image or video idea.

Self-Check Before Moving On: Write down what worked, what felt unclear, and one specific improvement you will make on your second repetition. Competence comes from completed reps, never passive reading.

Module 04 Key Takeaways

01

Paid social offers cheap, precise targeting.

02

Need a clear goal, strong creative and specific audience.

03

Start small, test, and scale what works.

03
Execution & Applied Mastery

Module 05: Google Ads basics | Module 06: Email marketing

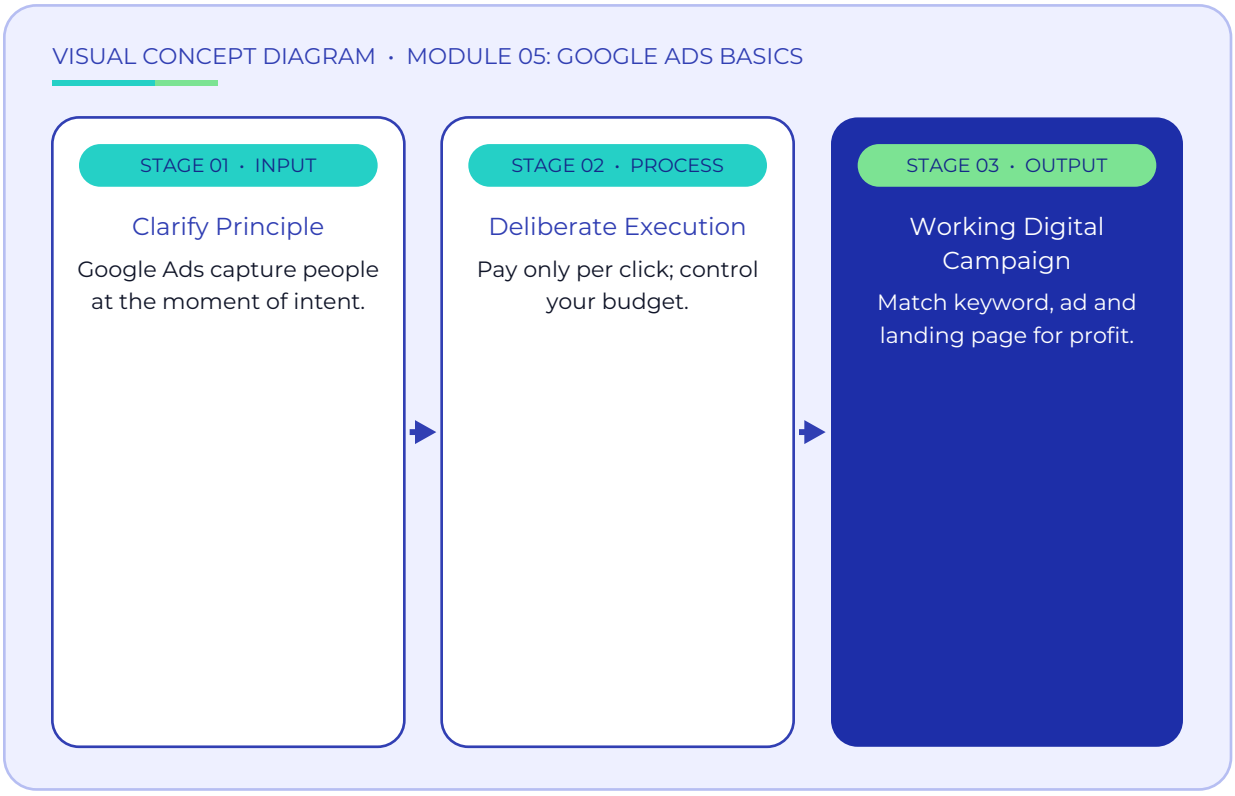

MODULE 05 · PART 1

3.1 Google Ads basics

Google Ads lets you appear at the top of search results for what people are searching, capturing customers at the exact moment of intent. Someone searching 'buy office chairs Kampala' is ready to buy; a well-placed ad puts you right in front of them. You pay only when someone clicks (pay-per-click), so you're paying for actual interest.

The essentials: choose keywords with buying intent, write ads that match what the searcher wants, and send clicks to a relevant page (not just your homepage). Set a daily budget you control, and track which keywords bring sales. Search ads can be highly profitable because you reach people actively looking, the warmest possible audience.

Why This Principle Matters in Depth: Many learners read about *google ads basics* at a surface level, yet struggle when building a real digital campaign. Notice the underlying logic: when you anchor your work around the rule that google ads capture people at the moment of intent., you remove guesswork and build repeatable confidence. Take time to study the visual concept diagram below before moving to the worked case study on the next page.

MODULE 05 | FIELD BRIEF

Focus Skill:
Google Ads basics

Core Rule:
Google Ads capture people at the moment of intent.

Target Output:
Working digital campaign

MODULE 05 | WORKED CASE STUDY

Real-World Scenario:
An electrician ran a small Google Ads campaign on 'electrician near me' searches. Each click cost little, but several turned into paying jobs worth far more, a clear, trackable profit from capturing people at the moment of need.

How to Apply This Lesson Step by Step

Look closely at why the example above succeeded: instead of waiting for perfect conditions, the practitioner focused on one concrete deliverable and tested it in the real world. Use the guided assignment below to build the exact same muscle in your own Digital Marketing workbook.

HANDS-ON LAB ASSIGNMENT · MODULE 05

Your Practical Task: Write down five buying-intent keywords for your business and draft one short search ad (headline + description) that would make a searcher click.

Self-Check Before Moving On: Write down what worked, what felt unclear, and one specific improvement you will make on your second repetition. Competence comes from completed reps, never passive reading.

Module 05 Key Takeaways

01

Google Ads capture people at the moment of intent.

02

Pay only per click; control your budget.

03

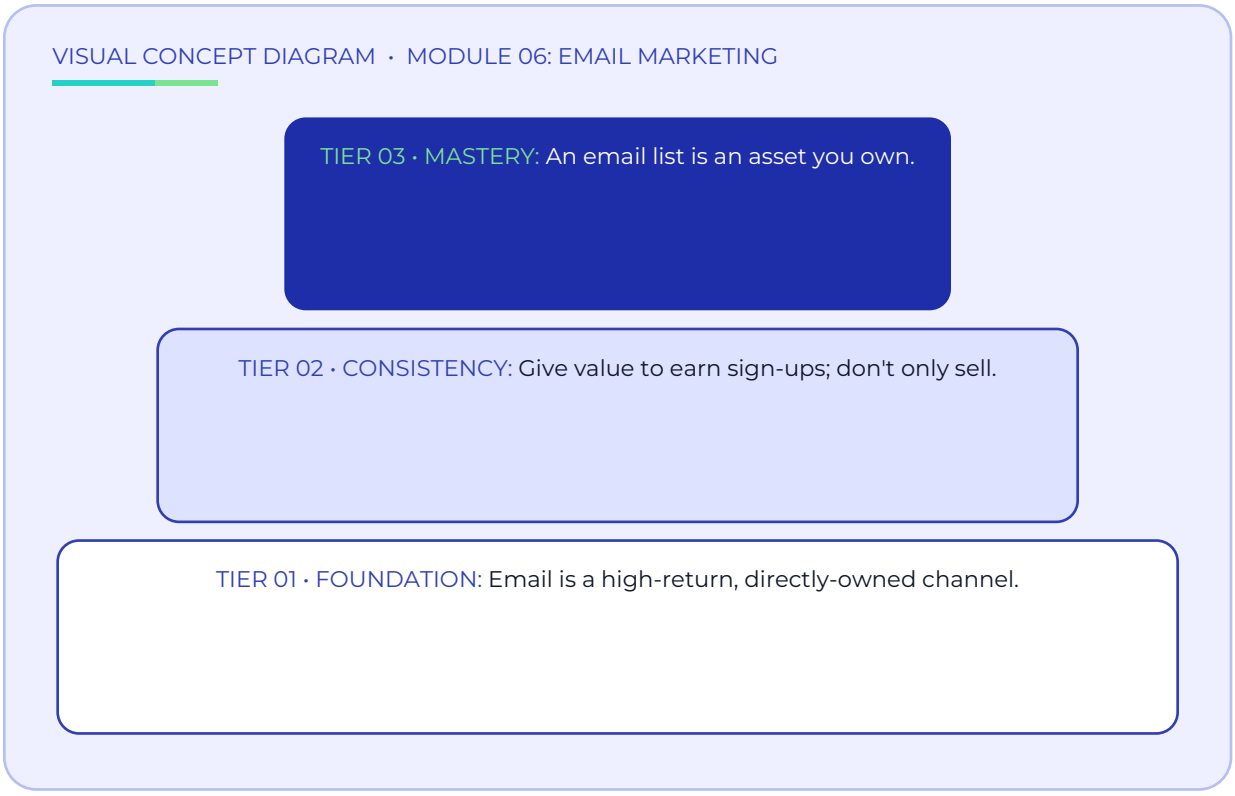

Match keyword, ad and landing page for profit.

3.2 Email marketing

Email remains one of the highest-return marketing channels, because it reaches people directly in an inbox they own, not at the mercy of a social algorithm. By collecting emails (with permission) and sending valuable, relevant messages, a business builds a direct line to interested people it can nurture and sell to again and again.

The basics: offer something valuable to encourage sign-ups (a discount, a useful guide), then send a mix of helpful content and offers, not just constant selling. Automated welcome sequences and regular newsletters keep you top-of-mind. A good email list is an asset a business owns outright, unlike rented social followers.

Why This Principle Matters in Depth: Many learners read about *email marketing* at a surface level, yet struggle when building a real digital campaign. Notice the underlying logic: when you anchor your work around the rule that email is a high-return, directly-owned channel., you remove guesswork and build repeatable confidence. Take time to study the visual concept diagram below before moving to the worked case study on the next page.

MODULE 06 | FIELD BRIEF

Focus Skill:
Email marketing

Core Rule:
Email is a high-return, directly-owned channel.

Target Output:
Working digital campaign

MODULE 06 | WORKED CASE STUDY

Real-World Scenario:
An online shop collected customer emails and sent a helpful monthly newsletter with tips and the occasional offer. Those emails consistently drove repeat sales at almost no cost, the list became one of the business's most valuable assets.

How to Apply This Lesson Step by Step

Look closely at why the example above succeeded: instead of waiting for perfect conditions, the practitioner focused on one concrete deliverable and tested it in the real world. Use the guided assignment below to build the exact same muscle in your own Digital Marketing workbook.

HANDS-ON LAB ASSIGNMENT · MODULE 06

Your Practical Task: Design a simple email plan for your business: what you'd offer for sign-ups, and three email topics (mixing value and offers) you'd send.

Self-Check Before Moving On: Write down what worked, what felt unclear, and one specific improvement you will make on your second repetition. Competence comes from completed reps, never passive reading.

Module 06 Key Takeaways

01

Email is a high-return, directly-owned channel.

02

Give value to earn sign-ups; don't only sell.

03

An email list is an asset you own.

04
Scaling, Capstone & Excellence

Module 07: Analytics and reporting | Module 08: Run a full campaign

MODULE 07 · PART 1

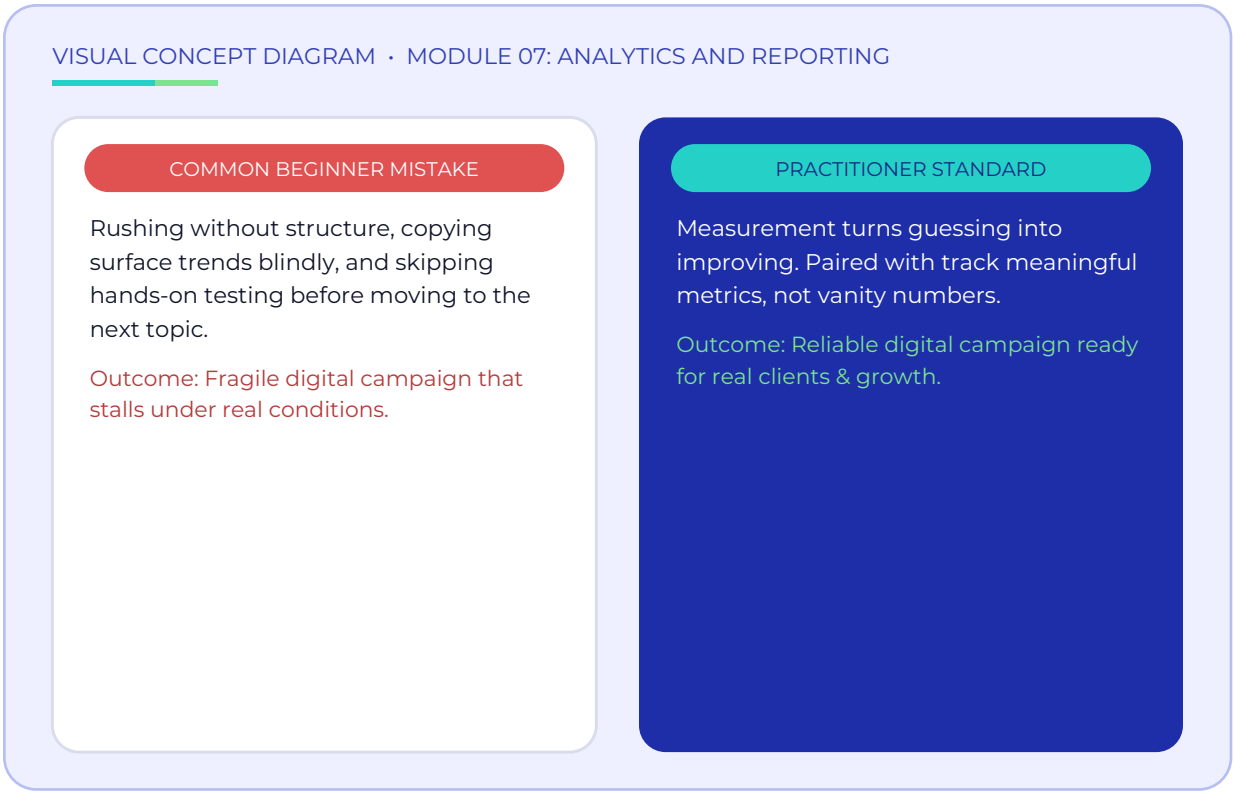

4.1 Analytics and reporting

What gets measured gets improved. Analytics tools (like free Google Analytics and each platform's built-in insights) show you what's actually happening: where visitors come from, what they do, and what leads to sales. Marketing without measurement is guessing; with it, you can double down on what works and stop wasting effort on what doesn't.

Focus on the metrics that matter for the goal, not vanity numbers like raw follower counts, but meaningful ones like leads, sales, and cost per result. Regularly review, learn, and adjust. The ability to read data and turn it into better decisions is what separates a professional marketer from someone just posting and hoping.

Why This Principle Matters in Depth: Many learners read about *analytics and reporting* at a surface level, yet struggle when building a real digital campaign. Notice the underlying logic: when you anchor your work around the rule that measurement turns guessing into improving., you remove guesswork and build repeatable confidence. Take time to study the visual concept diagram below before moving to the worked case study on the next page.

VISUAL CONCEPT DIAGRAM · MODULE 07: ANALYTICS AND REPORTING

MODULE 07 | FIELD BRIEF

Focus Skill:
Analytics and reporting

Core Rule:
Measurement turns guessing into improving.

Target Output:
Working digital campaign

MODULE 07 | WORKED CASE STUDY

Real-World Scenario:
A marketer discovered through analytics that most sales came from one channel he'd nearly ignored, while a channel he loved brought traffic but no buyers. Shifting focus to the real earner doubled results, the data corrected his gut.

How to Apply This Lesson Step by Step

Look closely at why the example above succeeded: instead of waiting for perfect conditions, the practitioner focused on one concrete deliverable and tested it in the real world. Use the guided assignment below to build the exact same muscle in your own Digital Marketing workbook.

HANDS-ON LAB ASSIGNMENT • MODULE 07

Your Practical Task: For your business, decide the one main goal (e.g. sales or leads) and list the three key metrics you'd track to know if marketing is working.

Self-Check Before Moving On: Write down what worked, what felt unclear, and one specific improvement you will make on your second repetition. Competence comes from completed reps, never passive reading.

Module 07 Key Takeaways

01

Measurement turns guessing into improving.

02

Track meaningful metrics, not vanity numbers.

03

Reading data into decisions defines a pro.

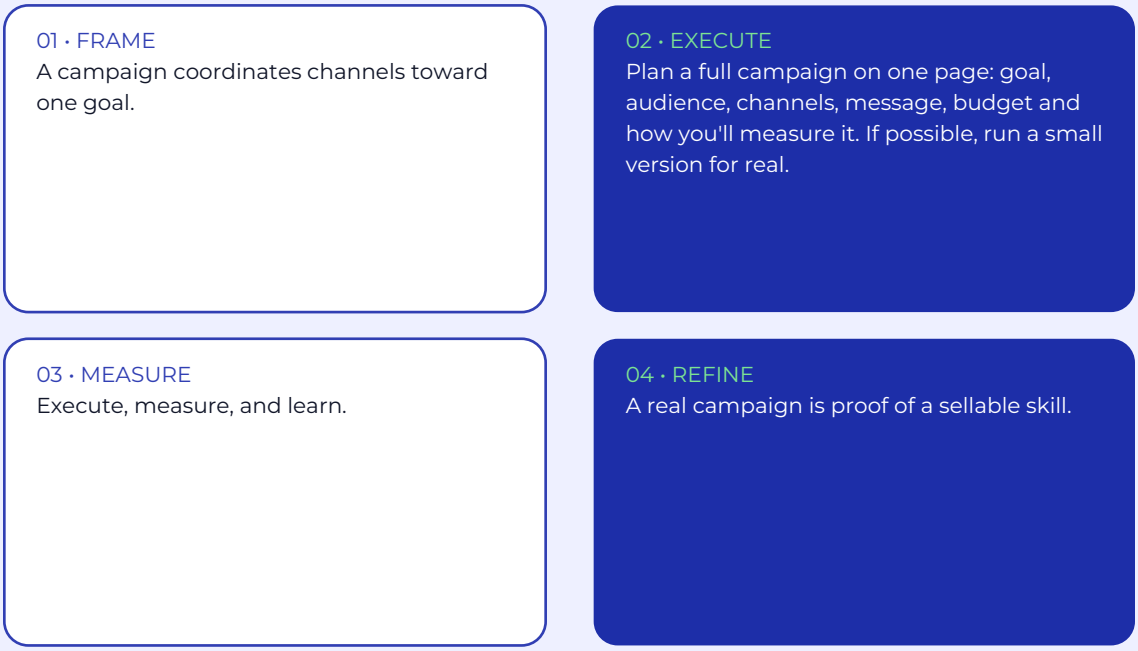

4.2 Run a full campaign

Your final project brings it together: plan and (ideally) run a complete campaign for a real or realistic business. Define the goal and audience, choose the right mix of channels, create the messages and content, set a budget, and decide how you'll measure success. A campaign is a coordinated push where the channels support each other toward one clear objective.

Then execute and review. Watch the numbers, learn what worked, and note what you'd change. Even a small real campaign teaches more than any theory. This end-to-end experience, strategy to results, is exactly what clients and employers want to see, and it turns your knowledge into a demonstrable, sellable skill.

Why This Principle Matters in Depth: Many learners read about *run a full campaign* at a surface level, yet struggle when building a real digital campaign. Notice the underlying logic: when you anchor your work around the rule that a campaign coordinates channels toward one goal., you remove guesswork and build repeatable confidence. Take time to study the visual concept diagram below before moving to the worked case study on the next page.

VISUAL CONCEPT DIAGRAM · MODULE 08: RUN A FULL CAMPAIGN

MODULE 08 | FIELD BRIEF

Focus Skill:
Run a full campaign

Core Rule:
A campaign coordinates channels toward one goal.

Target Output:
Working digital campaign

MODULE 08 | WORKED CASE STUDY

Real-World Scenario:
A learner ran a two-week campaign for a friend's catering business: a goal of ten new orders, targeted social posts and a small ad, a simple offer, and tracking via a discount code. It brought fourteen orders, real proof of a real skill.

How to Apply This Lesson Step by Step

Look closely at why the example above succeeded: instead of waiting for perfect conditions, the practitioner focused on one concrete deliverable and tested it in the real world. Use the guided assignment below to build the exact same muscle in your own Digital Marketing workbook.

HANDS-ON LAB ASSIGNMENT · MODULE 08

Your Practical Task: Plan a full campaign on one page: goal, audience, channels, message, budget and how you'll measure it. If possible, run a small version for real.

Self-Check Before Moving On: Write down what worked, what felt unclear, and one specific improvement you will make on your second repetition. Competence comes from completed reps, never passive reading.

Module 08 Key Takeaways

01

A campaign coordinates channels toward one goal.

02

Execute, measure, and learn.

03

A real campaign is proof of a sellable skill.

5.1 Complete 8-Module Practice & Competency Matrix

Review every module in Digital Marketing using the table below. Check off each module only after you have completed its hands-on assignment and verified your work against the core principle.

Module	Focus Topic	Core Principle	Workbook Check
Module 01	Introduction to digital marketing	Digital marketing is a trackable system, not guesswork.	Completed [ ]
Module 02	SEO fundamentals	SEO earns free traffic from active searchers.	Completed [ ]
Module 03	Content marketing	Help first; sell second.	Completed [ ]
Module 04	Social media advertising	Paid social offers cheap, precise targeting.	Completed [ ]
Module 05	Google Ads basics	Google Ads capture people at the moment of intent.	Completed [ ]
Module 06	Email marketing	Email is a high-return, directly-owned channel.	Completed [ ]
Module 07	Analytics and reporting	Measurement turns guessing into improving.	Completed [ ]
Module 08	Run a full campaign	A campaign coordinates channels toward one goal.	Completed [ ]

CAPSTONE PORTFOLIO STANDARD

Before graduating from this handbook, combine all eight modules into one finished, shareable digital campaign: *Plan a full campaign on one page: goal, audience, channels, message, budget and how you'll measure it. If possible, run a small version for real.* When ready for mentor feedback, email your work to chriscoyouthaflame2025@gmail.com.

5.2 Applied Fellowship Case Reflections

Real transformation happens when learners turn theory into consistent service. Reflect on these cohort case highlights from across East Africa as you prepare your own project:

"A small bakery went from waiting for walk-ins to running simple online marketing, a findable page, tasty photos, and a few local ads. Orders rose because customers could finally discover, trust and reach them online."

Cohort Case Reflection | Starting Strong in Module 01

STAGE 01

01

STAGE 02

02

"A local gym spent a small daily budget on a Facebook ad targeting people nearby interested in fitness. A short, energetic video plus a free-trial offer filled several class spots for less than the cost of one printed poster."

Mid-Course Breakthrough | Applying Strategy in Module 04

"A learner ran a two-week campaign for a friend's catering business: a goal of ten new orders, targeted social posts and a small ad, a simple offer, and tracking via a discount code. It brought fourteen orders, real proof of a real skill."

Capstone Completion | Shipping Real Work in Module 08

STAGE 03

03

Stewardship Principle: "Whatever your hand finds to do, do it with excellence, integrity, and faithfulness so your skill becomes a blessing to many."

06 90-Day Action Roadmap

True mastery in Digital Marketing is measured by what you build, ship, and steward after finishing the lessons. Follow this structured 90-day implementation plan developed by CHRISCO Youth Aflame (under CHRISCO Fellowship of Churches) to turn study into fruitfulness.

6.1 Four-Stage Post-Course Milestones

01

Days 1 to 14: Foundation Sprint

Complete Modules 1 to 4 labs and document your baseline specimen in Digital Marketing.

02

Days 15 to 30: First Live Output

Complete Modules 5 to 8 and ship your first real capstone deliverable: Plan a full campaign on one page: goal, audience, channels, message, budget and how you'll measure it. If possible, run a small version for real.

03

Days 31 to 60: Feedback & Iteration

Share your work with a mentor, peer, or real client/community audience and refine weak points.

04

Days 61 to 90: Service & Multiplication

Use your skill to serve your church, business, or clients faithfully and mentor one younger learner.

Follow-Up Stage	CHRISCO Support Channel	Contact & Cadence
Workbook Review	CHRISCO Digital Academy Desk	chriscoyouthaflame2025@gmail.com
Capstone Submission	CHRISCO Youth Aflame Mentors	shambetz@gmail.com
Peer Accountability	CHRISCO Fellowship Study Hubs	Monthly Cohort Check-In
