CHRISCO DIGITAL ACADEMY | CHRISCO FELLOWSHIP OF CHURCHES

Digital Marketing Course Handbook

"Grow any business online, with strategy, not guesswork."

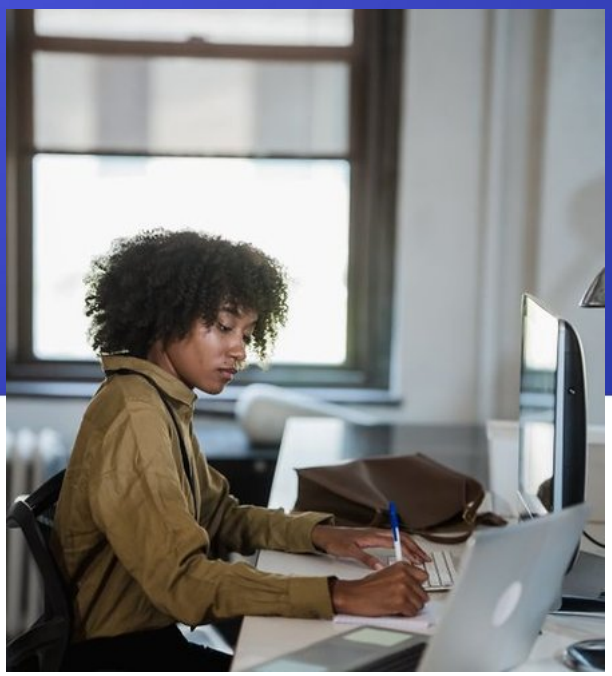

Growth Marketing & Analytics Track | 8 Weeks | All Levels

Self-Paced Study Edition

Prepared by CHRISCO Youth Aflame | chriscoyouthaflame2025@gmail.com

Course Foreword

Every business today needs to be found and chosen online, but most owners have no idea how. That gap is your opportunity. Digital marketing is a skill you can sell as a freelancer, use to grow your own venture, or turn into a full-time career, and it is learnable without a marketing degree.

This book gives you the map: how the pieces (search, content, social, ads, email, data) connect into a system that turns strangers into customers. You do not need to master every channel at once, understand the whole, then go deep where it matters.

THE PRACTITIONER PROMISE

You will learn how the main digital channels fit together, SEO, content, social, ads, email and analytics, and how to run a real campaign that gets measurable results.

Marketing is learned by doing and measuring. Apply each chapter to a real business, your own, a friend's, or an imagined one, so the ideas turn into skills.

Published by CHRISCO Digital Academy under CHRISCO Youth Aflame (*CHRISCO Fellowship of Churches*), this 8-module workbook equips youth and emerging leaders with practical, ethical, income-ready skills. Complete every chapter drill in a dedicated workbook and reach our mentorship desk anytime at chriscoyouthaflame2025@gmail.com.

Key Outcomes

01

Introduction to digital marketing: Digital marketing is a trackable system, not guesswork.

02

Content marketing: Help first; sell second.

03

Google Ads basics: Google Ads capture people at the moment of intent.

04

Analytics and reporting: A campaign coordinates channels toward one goal.

Across 8 Weeks of structured practice, learners progress from core principles to real-world execution. Every module pairs concise frameworks with an immediate hands-on drill so knowledge turns into demonstrable competence.

Graduates finish with a tangible portfolio deliverable in Digital Marketing, ready to serve clients, employers, ministries, and communities with excellence and integrity.

04 Scaling, Capstone & Excellence 12

05 8-Module Syllabus & Drill Matrix 14

06 90-Day Action Plan & Stewardship 15

01
Foundations & Core Mindset

Module 1: Introduction to digital marketing | Module 2: SEO fundamentals

1.1 Introduction to digital marketing

Digital marketing is everything a business does to reach and win customers online. It replaces guesswork with a system: attract the right people, earn their trust, and turn them into customers, all trackable and improvable. Unlike a billboard, you can see exactly what works and adjust, which makes it powerful and cost-effective even on a small budget.

The core idea is the customer journey: people move from not knowing you (awareness), to considering you, to buying, to (ideally) recommending you. Each channel plays a role along that journey. Your job as a marketer is to guide people smoothly from stranger to happy customer, using the right message in the right place at the right time.

Real-World Example: A small bakery went from waiting for walk-ins to running simple online marketing, a findable page, tasty photos, and a few local ads. Orders rose because customers could finally discover, trust and reach them online.

Hands-On Practice: Pick a business (real or imagined). Map its customer journey: how would a stranger first hear of it, decide to trust it, and finally buy?

Core Takeaways: Digital marketing is a trackable system, not guesswork. • Guide people from stranger to customer to advocate. • Even small budgets work when you measure.

1.2 SEO fundamentals

Search engine optimisation (SEO) is how you get found on Google when people search for what you offer, without paying for ads. It works by helping search engines understand your content and trust it. The basics: know the keywords your customers search, create genuinely useful content around them, and make your site fast, clear and mobile-friendly.

SEO is a long game but hugely valuable, because ranking well brings free, ongoing traffic of people actively looking to buy. Focus on answering real questions better than others do, using natural keywords in titles and content, and earning links and mentions over time. It rewards patience and quality, not tricks, which is good news for genuine businesses.

01

Practitioner Case

A plumber's simple page titled 'emergency plumber in Jinja' with helpful content started appearing in local searches, bringing steady calls for free, month after month, from people ready to hire right then.

02

Action Drill

For your chosen business, write down five keywords customers would search. Draft one helpful page or article title around the best one.

03

Key Standard

SEO earns free traffic from active searchers. Target real keywords with genuinely useful content. It's a patient long game that rewards quality.

02
Core Frameworks & Strategy

Module 3: Content marketing | Module 4: Social media advertising

2.1 Content marketing

Content marketing means attracting and keeping customers by consistently creating useful or interesting content, articles, videos, guides, posts, instead of only advertising. It builds trust and authority: when you help people for free, they remember you when they are ready to buy. Content is the fuel that feeds SEO, social media and email alike.

The key is to be genuinely valuable to your specific audience, solve their problems, answer their questions, entertain or inspire them. Plan content around what your customers care about, not just what you sell. Done consistently, content marketing turns your brand into a trusted resource, and trusted resources get the sale when the time comes.

Core Principle

Help first; sell second.

Field Case Study

A skincare seller posted honest tips about common skin problems instead of only pushing products. People trusted her advice, followed her, and bought her products when ready, the free content did the selling by building trust.

Applied Exercise

List five pieces of content (topics) that would genuinely help your business's customers. Outline the most useful one.

Mastery Check

Content builds trust and feeds every other channel. • Plan around customers' problems, not your products.

2.2 Three-Step Execution Rhythm

Step 1	Prepare & Frame Help first; sell second.	Practice Focus Audit your current approach before acting.
Step 2	Execute Deliberately Content builds trust and feeds every other channel.	Practice Focus Focus on clarity, calm pace, and measurable value.
Step 3	Review & Refine Plan around customers' problems, not your products.	Practice Focus Record outcomes and sharpen one habit per rep.

2.3 Social media advertising

Social media (Facebook, Instagram, TikTok, etc.) lets businesses reach huge, precisely-targeted audiences cheaply. Beyond free posting, paid social ads let you put your message in front of exactly the right people, by location, age, interests and behaviour, for a small budget. This targeting is what makes online ads so much more efficient than traditional ones.

Successful social ads need a clear goal (awareness, leads, or sales), a compelling creative (a scroll-stopping image or video with a strong message), and a specific audience. Start with a small budget, test different versions, keep what works and cut what doesn't. You can achieve real results with very little money if you target and test well.

01

Paid social offers cheap, precise targeting.

02

Need a clear goal, strong creative and specific audience.

03

Start small, test, and scale what works.

2.4 Real-World Case & Lab Assignment

Practitioner Case Study

A local gym spent a small daily budget on a Facebook ad targeting people nearby interested in fitness. A short, energetic video plus a free-trial offer filled several class spots for less than the cost of one printed poster.

Your Practical Assignment

Design one social ad concept for your business: the goal, the audience (who exactly), and the creative message. Sketch the image or video idea.

CHRISCO Youth Aflame Study Principle: "Paid social offers cheap, precise targeting. Consistent execution in small daily assignments builds authority that cannot be faked."

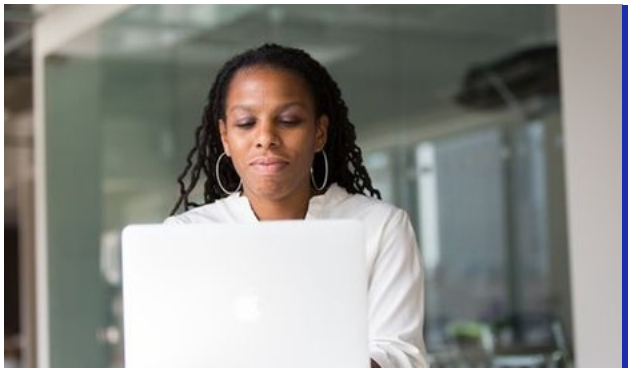

03
Execution & Applied Mastery

Module 5: Google Ads basics | Module 6: Email marketing

3.1 Google Ads basics

Google Ads lets you appear at the top of search results for what people are searching, capturing customers at the exact moment of intent. Someone searching 'buy office chairs Kampala' is ready to buy; a well-placed ad puts you right in front of them. You pay only when someone clicks (pay-per-click), so you're paying for actual interest.

The essentials: choose keywords with buying intent, write ads that match what the searcher wants, and send clicks to a relevant page (not just your homepage). Set a daily budget you control, and track which keywords bring sales. Search ads can be highly profitable because you reach people actively looking, the warmest possible audience.

Case: An electrician ran a small Google Ads campaign on 'electrician near me' searches. Each click cost little, but several turned into paying jobs worth far more, a clear, trackable profit from capturing people at the moment of need.

Action Drill: Write down five buying-intent keywords for your business and draft one short search ad (headline + description) that would make a searcher click.

3.2 Email marketing

Email remains one of the highest-return marketing channels, because it reaches people directly in an inbox they own, not at the mercy of a social algorithm. By collecting emails (with permission) and sending valuable, relevant messages, a business builds a direct line to interested people it can nurture and sell to again and again.

The basics: offer something valuable to encourage sign-ups (a discount, a useful guide), then send a mix of helpful content and offers, not just constant selling. Automated welcome sequences and regular newsletters keep you top-of-mind. A good email list is an asset a business owns outright, unlike rented social followers.

Case: An online shop collected customer emails and sent a helpful monthly newsletter with tips and the occasional offer. Those emails consistently drove repeat sales at almost no cost, the list became one of the business's most valuable assets.

Action Drill: Design a simple email plan for your business: what you'd offer for sign-ups, and three email topics (mixing value and offers) you'd send.

04
Scaling, Capstone & Excellence

Module 7: Analytics and reporting | Module 8: Run a full campaign

4.1 Analytics and reporting

What gets measured gets improved. Analytics tools (like free Google Analytics and each platform's built-in insights) show you what's actually happening: where visitors come from, what they do, and what leads to sales. Marketing without measurement is guessing; with it, you can double down on what works and stop wasting effort on what doesn't.

Focus on the metrics that matter for the goal, not vanity numbers like raw follower counts, but meaningful ones like leads, sales, and cost per result. Regularly review, learn, and adjust. The ability to read data and turn it into better decisions is what separates a professional marketer from someone just posting and hoping.

Field Example: A marketer discovered through analytics that most sales came from one channel he'd nearly ignored, while a channel he loved brought traffic but no buyers. Shifting focus to the real earner doubled results, the data corrected his gut. | Drill: For your business, decide the one main goal (e.g. sales or leads) and list the three key metrics you'd track to know if marketing is working.

4.2 Run a full campaign (Capstone)

Your final project brings it together: plan and (ideally) run a complete campaign for a real or realistic business. Define the goal and audience, choose the right mix of channels, create the messages and content, set a budget, and decide how you'll measure success. A campaign is a coordinated push where the channels support each other toward one clear objective.

Then execute and review. Watch the numbers, learn what worked, and note what you'd change. Even a small real campaign teaches more than any theory. This end-to-end experience, strategy to results, is exactly what clients and employers want to see, and it turns your knowledge into a demonstrable, sellable skill.

Competency Area	Capstone Standard	Starting	Target Mastery
1. Clarity & Preparation	Measurement turns guessing into improving.	Needs Draft	Confident & Ready
2. Execution Quality	A campaign coordinates channels toward one goal.	In Practice	Portfolio-Gra de
3. Real-World Proof	Plan a full campaign on one page: goal, audience, channels, message, budget and how you'll measure it. If possible, run a small version for real.	Planned	Completed & Reviewed
4. Consistency Habit	A real campaign is proof of a sellable skill.	Occasional	Weekly Discipline

5.1 Complete 8-Module Practice Matrix

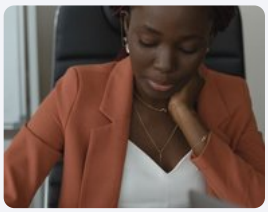

Use this checklist to track every hands-on assignment in Digital Marketing from Module 1 to your final project:

Module	Focus Topic	Core Deliverable & Principle
Module 01	Introduction to digital marketing	Digital marketing is a trackable system, not guesswork.
Module 02	SEO fundamentals	SEO earns free traffic from active searchers.
Module 03	Content marketing	Help first; sell second.
Module 04	Social media advertising	Paid social offers cheap, precise targeting.
Module 05	Google Ads basics	Google Ads capture people at the moment of intent.
Module 06	Email marketing	Email is a high-return, directly-owned channel.
Module 07	Analytics and reporting	Measurement turns guessing into improving.
Module 08	Run a full campaign	A campaign coordinates channels toward one goal.

5.2 Applied Fellowship Reflections

"A small bakery went from waiting for walk-ins to running simple online marketing, a findable page, tasty photos, and a few local ads. Orders rose because customers could finally discover, trust and reach them online."

CHRISCO Youth Aflame Cohort Case Note | Module 01

"A learner ran a two-week campaign for a friend's catering business: a goal of ten new orders, targeted social posts and a small ad, a simple offer, and tracking via a discount code. It brought fourteen orders, real proof of a real skill."

CHRISCO Digital Academy Capstone Highlight | Module 08

06 90-Day Action Roadmap

True mastery in Digital Marketing is measured by what you build, ship, and steward after finishing the lessons. Follow this structured 90-day implementation plan developed by CHRISCO Youth Aflame (under CHRISCO Fellowship of Churches) to turn study into fruitfulness.

6.1 Four-Stage Post-Course Milestones

01

Days 1 to 14: Foundation Sprint

Complete Modules 1 to 4 drills and document your baseline specimen in Digital Marketing.

02

Days 15 to 30: First Live Output

Complete Modules 5 to 8 and ship your first real capstone deliverable: Plan a full campaign on one page: goal, audience, channels, message, budget and how you'll measure it. If possible, run a small version for real.

03

Days 31 to 60: Feedback & Iteration

Share your work with a mentor, peer, or real client/community audience and refine weak points.

04

Days 61 to 90: Service & Multiplication

Use your skill to serve your church, business, or clients faithfully and mentor one younger learner.

Follow-Up Stage	CHRISCO Support Channel	Contact & Cadence
Workbook Review	CHRISCO Digital Academy Desk	chriscoyouthaflame2025@gmail.com
Capstone Submission	CHRISCO Youth Aflame Mentors	shambetz@gmail.com
Peer Accountability	CHRISCO Fellowship Study Hubs	Monthly Cohort Check-In
